AMERICAN MEDICAL RESPONSE hosts a COMMUNITY COALITION

'Let's Talk Truth'

Addiction & Wellness Resource Toolkit Access

Addiction and the impact to wellness is an overarching issue with MANY influencing factors.

Addiction is REAL. It walks like us, talks like us, and lives in our homes and on our streets.
The overall impact to the state of wellness is undeniable and sometimes access to resources seems shadowed and difficult to obtain.

We want to shed some light on this issue!
Join subject matter experts offering real conversations about programs and services in Contra Costa County that offer REAL solutions to REAL struggles our residents face.

Join us via video or dial in through TEAMS. We can't wait to meet with you!
