**MEMORANDUM REGARDING LAW ENFORCEMENT SUPPORT AT CONTRA COSTA COUNTY REGIONAL MEDICAL CENTER**

In the event that EMS personnel encounter a situation in which law enforcement support is indicated while at County Hospital, crews should request Sheriff's Support through the ConEMS dispatch channel. The crew should be sure to communicate their current location, the request for law enforcement resources, and – whenever possible – the nature of the situation. The ConEMS dispatcher will immediately contact SO dispatch to have the on-site Officer dispatched to the crew's location.

This applies to crews transporting to the ED, PES, or any other location on hospital grounds.
